ÉLÉGANCE ET DURABILITÉ | ELEGANCE & SUSTAINABILITY

ANTEA

Les piscines hors sol habillées ANTEA allient élégance et durabilité, transformant votre jardin en une oasis de détente même sans travaux de construction invasifs.

La conception des piscines ANTEA a en effet tenu compte de la sensibilisation croissante à l'environnement des clients.

Le revêtement en bambou naturel donne une touche raffinée, le système exclusif BOA Piscine Laghetto garantit une filtration impeccable tout en économisant les ressources en eau, tandis que le liner en tissu enduit PVC à armure entière offre résistance et durabilité.

Faciles à installer, les piscines hors sol habillées ANTEA vous permettent d'obtenir en peu de temps un bassin design dans votre jardin.

ANTEA's above-ground pools combine elegance and sustainability, turning your garden into an oasis of relaxation without invasive construction works.

In designing the ANTEA pool, much thought was given to the growing environmental awareness.

The natural bamboo cladding adds a touch of refinement, the exclusive Piscine Laghetto BOA® system guarantees perfect filtration while saving water resources, and the full weave PVC coated fabric liner provides strength and durability.

Easy to install, the Antea above-ground pools with cladding bring a designer pool to your garden in no time.

LES DÉTAILS DU KIT PISCINE > POOL KIT DETAILS

- La piscine hors sol ANTEA est habillée de panneaux en lattes de bambou, un matériau écologique, au caractère élégant et naturel, en parfaite harmonie avec l'environnement.

The ANTEA above-ground pools are clad with bamboo panels, an ecological material with an elegant and natural character that perfectly matches with its surroundings.

- La tête flottante du skimmer Antea fonctionne à fleur d'eau, en garantissant ainsi un très haut niveau de nettoyage constant dans le temps.

The floating head of the Antea skimmer works by skimming the water, thus guaranteeing a high degree of constant cleanliness over time.

- La structure d'Antea a été spécialement étudiée par les bureaux techniques Laghetto en utilisant de l'acier galvanisé et de l'aluminium peint pour une plus grande résistance aux phénomènes de corrosion.

The structure of Antea pools has been specially designed by Laghetto's R&D using galvanised steel and painted aluminium to ensure greater resistance to corrosion phenomena.

- Chaque piscine Antea est équipée d'un spot LED blanc qui crée des jeux de lumière spectaculaires, de jour comme de nuit.

Every Antea pool is equipped with a white LED spotlight that give to the pool impressive light effects, day and night.

- Les toiles bassin Antea sont fabriquées en tissu Trevira enduit, produit exclusif Piscine Laghetto.

Antea pool liners are made from coated Trevira PVC, an exclusive Piscine Laghetto product.

- La piscine Antea est équipée de l'échelle « Safety » avec la avec une partie externe basculante de sécurité. L'échelle est réalisée avec des tubes en acier et est dotée des marches en plastique blanc et balconnet supérieur en bois composite.

Antea pools have a "Safety" ladder with an external safety flip-open section. The ladder is made of tubular steel and is completed with white plastic steps and an upper step in composite wood.

- Antea est équipée d'un système de filtration BOA constitué d'une chaussette spéciale de grande capacité et d'une surface filtrante, capable de retenir les plus petites particules d'impuretés. Doté d'une pompe performante et facile à nettoyer et à entretenir, il s'agit d'un outil très respectueux de l'environnement en termes d'économie d'eau.

Antea pools are equipped with a BOA® filtration system, which consists of a special sock with a high filtering and surface area capacity, to retain the smallest particles of impurities. Equipped with a high performance pump, easy to clean and maintain, it is a highly eco-friendly component in terms of saving water consumption.

- Chaque Antea est dotée d'un kit balai aspirateur à appliquer sur le skimmer pour garantir un nettoyage parfait du fond.

Every Antea pool is equipped with a vacuum cleaner kit that can be attached to the skimmer to ensure perfect bottom cleaning.

ELEGANZA E SOSTENIBILITÀ | ELEGANCE & SUSTAINABILITY

ANTEA

Le piscine fuori terra ANTEA uniscono eleganza e sostenibilità, trasformando il giardino in un'oasi di relax senza necessità di lavori edili invasivi.

La progettazione della piscina ANTEA ha, infatti, tenuto in gran considerazione la crescente consapevolezza ambientale.

Il rivestimento in bambù naturale dona un tocco raffinato, il sistema BOA® esclusivo Piscine Laghetto garantisce una filtrazione impeccabile risparmiando risorse idriche, mentre il liner in tessuto spalmato PVC con armatura intera offre resistenza e durabilità.

Facili da installare, le piscine fuori terra ANTEA, permettono di ottenere in poco tempo una vasca di design nel proprio giardino.

ANTEA's above-ground pools combine elegance and sustainability, turning your garden into an oasis of relaxation without invasive construction works.

In designing the ANTEA pool, much thought was given to the growing environmental awareness.

The natural bamboo cladding adds a touch of refinement, the exclusive Piscine Laghetto BOA® system guarantees perfect filtration while saving water resources, and the full weave PVC coated fabric liner provides strength and durability.

Easy to install, the Antea above-ground pools with cladding bring a designer pool to your garden in no time.

I PARTICOLARI DEL KIT PISCINA > POOL KIT DETAILS

► La piscina fuori terra ANTEA è rivestita con pannelli in listelli di bambù, un materiale ecologico, dal carattere elegante e naturale, in completa armonia con l'ambiente circostante.

The ANTEA above-ground pools are clad with bamboo panels, an ecological material with an elegant and natural character that perfectly matches with its surroundings.

► La testa flottante dello skimmer Antea lavora a sfioro sull'acqua, garantendone così un alto grado di pulizia costante nel tempo.

The floating head of the Antea skimmer works by skimming the water, thus guaranteeing a high degree of constant cleanliness over time.

► La struttura di Antea è stata specificatamente studiata dalla Ricerca e Sviluppo Laghetto utilizzando acciaio zincato e alluminio verniciato per una maggiore resistenza ai fenomeni di corrosione.

The structure of Antea pools has been specially designed by Laghetto's R&D using galvanised steel and painted aluminium to ensure greater resistance to corrosion phenomena.

► Ogni piscina Antea è dotata di un faretti a Led bianco che crea giochi di luce d'effetto, sia di giorno che di notte.

Every Antea pool is equipped with a pool impressive light effects, day and night.

► I teli vasca Antea vengono realizzati in tessuto Trevira spalmato, prodotto esclusivo Piscine Laghetto.

Antea pool liners are made from coated Trevira PVC, an exclusive Piscine Laghetto product.

► Antea è corredata da sistema di filtrazione BOA® costituito da una speciale calza dall'alta capacità e superficie filtrante, in grado di trattenere le più piccole particelle d'impurità. Dotata di una pompa performante e dalla semplice pulizia e manutenzione, è uno strumento altamente ecosostenibile in termini di risparmio del consumo d'acqua.

Antea pools are equipped with a BOA® filtration system, which consists of a special sock with a high filtering and surface area capacity, to retain the smallest particles of impurities. Equipped with a high performance pump, easy to clean and maintain, it is a highly eco-friendly component in terms of saving water consumption.

► La piscina Antea monta la scaletta "Safety" con parte esterna ribaltabile (di sicurezza). La scala è realizzata con tubolari in acciaio ed è completa di gradini in plastica bianca e balconcino superiore in legno composito.

Antea pools have a "Safety" ladder with an external safety flip-open section. The ladder is made of tubular steel and is completed with white plastic steps and an upper step in composite wood.
